

BNC clamp

The interface dimensions and technical characteristic are in accord with the specifications of MIL-C-39012, IEC-169-8, CECC22120 and BS 9210 N 004

Key Performance				
Temperature range		-65~+165	Insulation resistance	≥5000MΩ
Characteristic impedance		50Ω	Dielectric Withstanding Voltage	1500V(rms)
Frequency range		0~4GHz(50Ω)	VSWR	≤1.30
Voltage rating		500V(rms)	Disengage force	≥0.6N
Contact resistance	Center conductor	≤1.5mΩ	Durability	500Cycles
	Outer conductor	≤1mΩ		
Material And Plating				
Body			Brass , nickel plated	
Male center contacts			Brass , gold plated	
Female center contacts			Beryllium copper or phosphor bronze , gold plated	
Insulators			PTFE	
Crimp ferrules			Copper alloy , nickel plated
